Mantels Can Be Customized

Calculating Custom Mantel Dimensions:

$$Y \text{ (Body Width)} = A \text{ (Leg Width)} \times 2 + G \text{ (Opening Width)}$$

$$Z \text{ (Overall Height)} = D \text{ (Breast Height)} + H \text{ (Opening Height)}$$

$$X \text{ (Overall Shelf Length)} = C \text{ (Leg & Overhang)} \times 2 + G \text{ (Opening Width)}$$

LIGHT BRITE mantels are proudly manufactured by skilled craftsmen right here in the USA. Mantels offered to you in this catalog will be assembled with American labor, tooling, and lumber. Production efficiencies and years of wood working experience allow us to bring this quality collection to you today. Mantels can be built to fit almost any fireplace application and are available in maple, oak, cherry, poplar, and most other available wood species. Mantels are available primed, pre-finished, or unfinished. If you are a home builder with discriminating taste and demand quality we would love an opportunity to earn your business.
